Who We Are

About STAREC

Established in 2016, STAREC is a dedicated team committed to delivering customized automation solutions, products, and services that align with your needs and expectations.

Our agile team of craftsmen has worked with companies across diverse fields and sizes, building world-class quality products and leading the road to success.

- ✓ Tailored solutions for every project
- ✓ Expert team with deep industry knowledge
- ✓ End-to-end lifecycle support

Mission & Vision

Our Mission Mission

Ensuring innovative products have enough capacity to **"disrupt" the industry** through emerging technology has been our mission since day one.

Our approach to technologies and people is tailored to each product. You will always work with a team of experts who understand your end goal and support you all the way to the finish line, no matter where it is in the product lifecycle.

Our Vision Vision

All of our work establishes a **strong partnership** which results in world-class quality products on top of a solid technology foundation.

We envision becoming the leading technology solutions provider in Vietnam, recognized for our commitment to excellence, innovation, and customer satisfaction across all industrial sectors we serve.

Industry Sectors

Products & Solutions

Electric Automation

Automation is the cornerstone of the electrical systems we've delivered to our esteemed clients. We provide comprehensive control solutions from design to implementation.

- > Control Panel Manufacturing
- > PLC & SCADA Programming
- > Industrial Communication
- > Enclosure Systems

Industrial Valves

As authorized distributor of Versa, Oliver valve and Detrol, we supply pumps, valves & instruments to industrial projects with full technical support.

- > Manual Valves
- > Solenoid Valves
- > Control Valves
- > Industrial Pumps

Gas Safety Systems

Comprehensive safety solutions powered by STAREC and Honeywell, ensuring maximum protection for hazardous industrial environments.

- > Gas Detection Systems
- > Safety Instrumentation
- > Emergency Shutdown
- > Leak Detection

Our Approach: Delivering comprehensive solutions from sourcing and engineering to final delivery, with one-stop integration, collaborative support, and post-sales services.

Core Expertise

Electric Automation Solutions

We specialize in designing and manufacturing custom electrical control panels and automation systems that meet the highest industry standards.

PLC Programming

Programming

Siemens S7-1200/1500, Rockwell Allen-Bradley, Schneider Modicon

SCADA Systems

WinCC, FactoryTalk, Ignition, custom HMI development

Industrial Communication

Communication

Profinet, EtherNet/IP, Modbus TCP, OPC-UA integration

Enclosure Systems

Rittal enclosures, cooling units, heaters, fan & filter units

Technology Partners

Partner: CAD Supply Limited Company (cads.vn)

Industrial Valves

Manual Valves

Comprehensive range of manual valves for industrial applications, including gate valves, globe valves, ball valves, and butterfly valves.

- ✓ Gate, Globe & Ball Valves
- ✓ Butterfly & Check Valves
- ✓ Pressure & Temperature Ratings

Solenoid Valves Valves

High-performance solenoid valves for precise flow control in automated systems, featuring fast response times and reliable operation.

- ✓ 2-Way & 3-Way Configurations
- ✓ Explosion-Proof Options
- ✓ Versa Valve Series

Authorized Distributor

olivervalves

Gas Safety Solutions

Fixed Industrial Gas/Flame Detection

Systems are permanently installed, wall-mounted safety devices that continuously monitor provide 24/7 protection, triggering alarms to protect personnel, assets, and the environment

- ✓ Point Detectors
- ✓ Open Path Detectors
- ✓ Ultrasonic Detectors
- ✓ Optical Detection
- ✓ Video Integration

Portable Gas Segmentation

Designed to be lightweight, easy to carry, and capable of functioning in diverse conditions, making them indispensable for fieldwork, industrial safety

- ✓ Single-Gas
- ✓ Multi-Gas
- ✓ Semi-Fixed

Authorized Distributor

Honeywell

BARTEC

Dräger

Project References - Oil & Gas

01

Vent Boom Replacement & Gaslift System

RBDP-A Platform, Blocks 01&02, Offshore Vietnam

Customer: Vietsovpetro / PVN Block 01 & 02

Supply Scope:

Instrument control panel including flow instruments, manual valves, solenoid valves, and complete panel assembly

02

RC-12 Wellhead Platform Construction

WCP RC-12 Wellhead Platform Materials

Customer: Vietsovpetro

Supply Scope:

Tubing and fitting for wellhead platform construction

03

Pump Control System Upgrade

First Solar Vietnam Manufacturing Plant

Customer: Ky Nghe Moi Truong Technology JSC

Supply Scope:

Electrical control panel with PLC Siemens, Schneider MCB, Phoenix Contact terminals, Rittal panel

Key Achievements

- ✔ Offshore platform automation
- ✔ Hazardous area compliance
- ✔ Major energy sector clients
- ✔ 100% project completion rate

Happy Clients

Market Segments

Energy, Oil & Gas

Offshore platforms, refineries, pipelines, and petrochemical facilities requiring hazardous area equipment and automation systems.

Key Clients: Vietsovpetro, PVN, PTSC

Food & Beverage Beverage

Processing plants, mixing systems, packaging lines, and hygienic automation solutions for food production.

Key Clients: PepsiCo, Vinamilk, Acecook, Nestle

Chemical & Fertilizer Fertilizer

Chemical processing, fertilizer production, and specialty chemical manufacturing with strict safety requirements.

Key Clients: Brenntag, Henkel

Steel & Building Materials Materials

Steel mills, cement plants, and building material manufacturing facilities requiring robust automation solutions.

Industrial automation & control

Water Supply & Treatment Treatment

Water treatment plants, pumping stations, and distribution systems with SCADA monitoring and control.

Municipal & industrial water

Utility & Infrastructure Infrastructure

Power generation, renewable energy, and critical infrastructure requiring reliable automation and safety systems.

Key Clients: Mekong Energy, First Solar
